FOR IMMEDIATE RELEASE

Camperland Announces Opening of New Campsites During Summer 2011 Season

Conneaut Lake, Pa. (May 12, 2011)—New campsites are being added at Conneaut Lake Park's Camperland during the upcoming 2011 summer camping season.

According to Jack Moyers, the Chairman of the Board of Trustees at Conneaut Lake Park, since Camperland has been one of the most successful entities of Conneaut Lake Park, new campsites will be added.

The new sites are full hook-ups at the same price; daily rates are \$35, tent sites are \$22 and wooden tents are \$45.

"We are very excited about the new campsites and hope they bring in new families," Jack Moyers said.

Conneaut Lake Park's Camperland was first built in 1986 where the former "Fairyland Forest" once existed. "Fairyland Forest," which used a combination of fairy tale characters and animals to help attract families and appeal to young children, had first opened in 1986 and closed in 1985 before Camperland was built. "Jonah the Whale" from "Fairyland Forest" can still be seen in the pond located within Camperland.

Camperland has been a getaway in your own backyard for the past 25 years by making memories for generations of families.
